

Medieval Times[®]

Medieval Times is celebrating its 25-year reign.

Inspired by the true 11th century Spanish medieval tradition of royal families inviting guests to a festival and feast to watch knights compete on horseback.

During the early years in Spain, the show's authentic display of classic equestrian skills and medieval pageantry took place in outdoor arenas, but in Schaumburg we enjoy a climate-controlled castle. Guests are seated in sections named for regions of Medieval Spain and are served a Medieval style feast. All cheer for the Knight representing their region. **RAISE YOUR CUP!**
