### Weekly Journalism Data

**Respondents:** 31

**Status:** Open

**Launched Date:** 10/19/2009

**Closed Date:** N/A

4.	Compare the ratio of news to pictures. How do you feel about these ratios? Do they reflect our organization's philosophy and capability?	Full Response
1.	I think the ratio should be closer. There were four photos published and 9 stories, i feel that there should be at least half the number of pictures as stories. This shows that we have fully covered events and it helps develop fuller stories.	<a href="#">view</a>
2.	the ratio is pretty good because this means were getting pictures for more then half of the stories and are covering lots of events	<a href="#">view</a>
3.	I think this is a good ratio. It would be nice to have a picture with every story but that is not always possible.	<a href="#">view</a>
4.	13:6 does not reflect our neww publications ability to take photos. Most stories can have a photo, we just need to get the shot.	<a href="#">view</a>
5.	The ratio of 5 pictures to 10 stories is pretty good. Especially when a lot of the events are away. Almost half of all our articles have pictures which is really good.	<a href="#">view</a>
6.	It is a good ratio because stories are more important than pictures.	<a href="#">view</a>
7.	I really like the ratio of 9:6. It shows that we are covering many events by taking pics.	<a href="#">view</a>
8.	9:6 is pretty good. I think that we could have used a few more- because it's nice to have a photo accompany each story. However, I understand that not every story can have a photo.	<a href="#">view</a>
9.	I think the ratio of pictures is good. Its nice to have a picture for each story that is written.	<a href="#">view</a>
10.	i think its a very good ratio and does reflect our philosophy.	<a href="#">view</a>
11.	A ratio of three to one with stories and photos is great. There are lots of photos, but the paper is not overwhelmed by them.	<a href="#">view</a>
12.	Its a pretty good ratio. I feel good about it.	<a href="#">view</a>
13.	I think this is a pretty good ratio. Pictures help the readers to visualize the stroy and over half our articles had pictures.	<a href="#">view</a>
14.	13:5	<a href="#">view</a>
15.	I think it's pretty good because you can't always find a picture for each story	<a href="#">view</a>
16.	I think we could definitely get a picture for every story, but the photo coverage is pretty good.	<a href="#">view</a>
17.	11 : 6 I feel like this is a pretty good ratio. It is not physically possible to get photos of every story published with the one camera that we have. However, we should try to get as many photos as possible.	<a href="#">view</a>
18.	I think the ratio could be a lot better. Some of the stories definitely had the ability to have a picture with them that didn't.	<a href="#">view</a>

19. 13:5 [view](#)
20. We had more news stories than pictures but not by a lot. I feel that most of these stories went with news stories. It tells that we can make a lot of news stories. [view](#)
21. I feel this is a good ratio. If we can get a picture to accompany most of the stories that are published that is very good because it attracts the reader [view](#)
22. 11:5- This is about a picture for every two stories. That's a pretty good ratio. We could use a couple more. [view](#)
23. I think that we could probably get more pictures for our stories, because every story has a picture to tell. [view](#)
24. 11 to 5 ratio is a pretty good one i think, maybe a few more would of been better, but its certainly a good start. [view](#)
25. This is an acceptable ratio, but we as a publication can do better, there is no reason every story with events as the subject should not have an original photo. [view](#)
26. It's pretty good but we could always use more. Though overall it's very good. [view](#)
27. While we want to have as many pictures as possible, having one picture for every 2 stories is a pretty good ratio. [view](#)
28. We should have more pictures. [view](#)
29. I'm not sure what the ratio really should be but for every 2 stories being published, there is 1 picture being published. And there were 6 sports stories, so that means that we were at every sporting event plus 2 other events. I think this sounds pretty good. [view](#)
30. There were 4 pictures and 7 news stories. I think that there should be more pictures for the news articles. When there are picture, I think that more people are drawn to read the article. [view](#)
31. I think it would be nice to have some more pictures. I think it would be great if we could get closer to one picture for every news story. [view](#)
