- | 8. | Compare the ratio of news to sports to features stories. How do you feel about these ratios? Do they reflect our organization's philosophy and capability? | Full
Response |
|-----|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------|
| 1. | I feel that we should have more news stories but sports are starting to come to end and we need to make sure we are not only covering the sport but following the success of individuals. It is important that we cover the sport and the people who play. We havent had any features stories, but now that we know how to better cover them, I look forward to seeing feature stories develop from news stores. | view |
| 2. | this is a bad ratio, there should be more news stories than sports stories | view |
| 3. | There should be more news stories.
7:6:0 | view |
| 4. | 7 news stories and 6 sports stories is a poor ratio because our news publication considers it good to be 2:1. We need more news. | view |
| 5. | This week there were more sports stories than news stories. However, I feel like this ratio was because the lack of news stories last week. I don't feel like our publication did a poor job, it's just there weren't many news stories to write about. | view |
| 6. | Not a good ratio because we definitely need more news stories than sports stories. | view |
| 7. | This ratio is atrocious. We should have so many more news. | view |
| 8. | They weren't bad. However, I don't know why we only had 9 stories published. We could have had more stories all around. | view |
| 9. | I think there needs to be more news stories, as featured stories become more popular they will mix with the rest of the ratio good. | view |
| 10. | yes they do reflect our philosophy. I think they are very good it would be nice to get more stories and sports covered, but it's good./ | view |
| 11. | Not great. We were seriously lacking in news stories last week. | view |
| 12. | Its a hot ratio. | view |
| 13. | I feel like this ratio was good. I think we could have had a feature story this week since we talked about it in class, but otherwise it was a fine ratio. | view |
| 14. | 6:5:0 this ratio does not reflect our organizations's capability, because the ratio is so low. there were not many stories written last week, which is not reflective of the ability that our news group is capable of | view |
| 15. | The ratio isn't what it is normally at and that is around 2:1. I think we like it to be around that 2:1 ratio. | view |
| 16. | I think the sports number is a little high, compared to the news. | view |

17. 6 : 5 I feel like we could use more news stories. While it is good to have a lot of sports, we should try to have a bigger ratio of news to sports stories. [view](#)
18. I think the ratio does not reflect our philosophy or capability. There have been previous weeks where we have posted 20 stories, so 11 is not very good. And the news to sports is bad because we are a news organization. [view](#)
19. I think that the ratio was really good. Several teams have went to sectionals and state so I think it's good that we had a few more sports stories than usual. We need to start doing some feature stories now that we know how to do them. [view](#)
20. We had more news stories this week. I feel that we're stepping up. [view](#)
21. This ratio is a little too close. We should have some more news stories compared to sports. Next week we should have a larger amount of news and features. [view](#)
22. 6:5:0- I think they're a good ratio, since we only started talking about feature stories last week. [view](#)
23. its a good ratio, only one story of a difference, not too bad [view](#)
24. The ratio of news to sports continues to remain good [view](#)
25. I would feel more comfortable with more news stories. Though not inappropriate, this ratio is too close to one for the amount of news that happened last week. [view](#)
26. Yeah I guess so. [view](#)
27. We could use more news stories. [view](#)
28. I think the totals need to go news features sports, from high to low. [view](#)
29. I think there should have been more news stories since we had 6 sports stories and 10 news. I definitely think we could have done more news stories. I think since we just learned about feature stories it is fine that we don't have any yet but in a few weeks, I think we should. [view](#)
30. I think we should start doing some feature stories, now that we are aware of how to write them. I think it is good that we had more news stories than sports stories as well. It is good to have sports stories, but I think we should focus on news more. [view](#)
31. I think it was good that we had more news stories. I think the ratio is ok. [view](#)
