

## **Student Conduct Committee End of Year Report**

The Student Conduct Committee met on April 20, 2011 to review the 2010-2011 Student Handbook. The committee was charged with making recommendations to Administration regarding any potential changes to the handbook. The minutes from the meeting are attached.

This is a standing committee whose work is primarily focused on the student handbook, policies governing student behavior and the school environment. The committee was comprised of three parents, at least one member of the Student Senate from each class, three faculty members, one guidance counselor and is chaired by the Assistant Principal. Goals for the future are to continue to be sensitive to any issues regarding student life, as well as annually reviewing the student handbook.
