

Diversity Subcommittee, December 2010

Karen,

The Diversity Committee met last week and did the following:

Reviewed and discussed the results of the diversity survey.

Spoke with Dr. Dean about putting the results into SPSS so that the data could be disaggregated and reviewed using specific demographic indicators.

The decision that between now and the time needed to do the above, committee members will be reviewing the extended student comments for greater insight into the culture and climate of our school regarding diversity.

Thanks,
