

**KEYSTONE POLICY PROPOSAL  
CLINICAL STUDENT FEEDBACK DISTRIBUTION**

May 1, 2007

**POLICY**

Every clinical experience student has the opportunity to provide feedback on their experience at the end of each semester. This feedback is gathered using an anonymous standardized scantron form which is currently facilitated by the C&I 216 instructor (often at the same time as that instructor's own evaluation). The data is then tabulated to provide not only feedback for each individual but departmental and school results as well.

Beginning in the fall of 2007, each individual faculty associate at University High School will receive their own individual, department and school scores. The administration will receive all individual and department scores in addition to school-wide scores.
